

MCKENZIE COUNTY

The 25 largest employers in McKenzie County for 2016 are ranked below. Updated annually, employer rankings are based on the number of monthly payroll jobs reported to the Quarterly Census of Employment and Wages (QCEW) program. The QCEW program uses the monthly jobs data to calculate an average annual employment number for each employer of the referenced calendar year and the results are ranked within eligible geographic areas. A county is eligible to be surveyed if its average employment levels are greater than or equal to 1,000, based on the county's latest five-year moving average. A five-year moving average is used to avoid having counties close to the eligibility cutoff in any one year from popping in or out of the survey, which provides for a more stable selection of eligible counties between survey cycles. While the eligibility cutoff for a county to be surveyed is based on a five-year moving average, the final rankings are based on the employer's latest calendar year average annual employment data. A surveyed county is eligible to be published if at least 50 percent of the ranked employers have given permission to be published, otherwise lists for those counties will not be published. Results are limited to those employers participating in the state's unemployment insurance program, which includes more than 95 percent of all employers in the state. Employers gave their written consent for their company's name to be published on this list. If permission was not obtained, 'Nondisclosable' was substituted for the company name.

Rank	Employer	Ownership	Industry
